# ELECTRICITY SAFETY

## Outdoors

- Never go near a downed power line or anything else that is in contact with it. Call GP&L (972-205-3000) and the police (911) to report a downed line.
- Don't touch a fence, tree or anything else that has come into contact with a fallen power line.
- Substations and pad-mounted transformers contain high voltages of electricity. Don't climb or play around either.
- Keep pool skimmers, ladders and other long tools away from overhead lines.

For more electric safety tips, visit [gpltexas.org/safety](http://gpltexas.org/safety)

## Indoors

- Never overload electrical outlets.
- Never put anything but plugs in electrical outlets.
- Don't use an appliance if its cord is cracked or frayed.
- Never use electrical appliances in or near water.
